

Sprint 2 Plan

HotelLocal

Completion Date: 11/4/18

Goal: Develop the back-end framework and work on the front-end.

User Story 1: As a developer, I want to create a local hotel database (5).

Task 1: Information on all hotels, gathering data

Task 2: Setting up the database

Task 3: Putting data into the database

User Story 2: As a developer, I want to create a search and sort algorithm prominently displaying local/family owned hotels (7).

Task 1: Design the algorithm

Task 2: Code the algorithm

Task 3: Test the algorithm

User Story 3: As a developer, I want a detailed, more interactive website (4).

Task 1: Planning the layout and architecture of the website

Task 2: Making a new screen when the search button is clicked
