

Sprint 4 Plan

HotelLocal

Completion Date: 12/2/18

Goal: To clean up the UI and functions, and add some additional features

User Story 1: “As a user, I want to visit a clean, organized website, so that I can find all the information I need in a readable format.”

Task 1: Clean up title fonts (3)

Task 2: Re-format page layout (6)

Task 3: Make website information more readable (7)

Total for user story 1: 16 hours

User Story 2: “As a user, I want to be able to sort/filter my hotel results through a variety of options, so that I may find my best pick.”

Task 1: Implement pricing sorting/filtering option (5)

Task 2: Allow multiple filtering/sorting options at a time (7)

Task 3: Format buttons in a menu on the side of webpage (6)

Total for user story 2: 18 hours

User Story 3: “As a user, I want to find booking options for my hotel, so that I can plan my stay.”

Task 1: Provide link from hotel name on results to booking page (3)

Task 2: Autofill information on booking site with basic information, given hotel (10)

Task 3: Allow user to personalize information for autofill (8)

Total for user story 3: 21 hours
